ANNUAL MEETING
OF STOCKHOLDERS

About PRA Group, Inc.

Headquartered in Norfolk, Virginia and incorporated in Delaware, we are a global financial and business services company with operations in the Americas and Europe. Our primary business is the purchase, collection and management of portfolios of nonperforming loans. The accounts we acquire are primarily the unpaid obligations of individuals owed to credit grantors, which include banks and other types of consumer, retail and auto finance companies. We acquire portfolios of nonperforming loans in two broad categories: Core and Insolvency. Our Core operation specializes in purchasing and collecting nonperforming loan accounts, which we purchased at a substantial discount to face value since either the credit grantor and/or other third-party collection agencies have been unsuccessful in collecting the full balance owed. Our Insolvency operation consists primarily of purchasing and collecting nonperforming loan accounts subject to bankruptcy proceeding. We also provide the following fee-based services: class action claims recovery services and servicing of consumer bankruptcy accounts in the United States ("U.S."). For more information about our business, please refer to our Annual Report on Form 10-K for the year ended December 31, 2018 as filed with the U.S. Securities and Exchange Commission (the "SEC") on March 12, 2019. The information contained on, or that can be accessed through our website, including any document referenced in this Proxy Statement, is not, and shall not be deemed to be, a part of this Proxy Statement.

Corporate Governance

The primary responsibility of our Board is to exercise its business judgment while acting in the best interests of the Company and its stockholders. Our Board has responsibility for establishing broad corporate policies, setting strategic direction, and overseeing management, which is responsible for the daily operations of the Company. Our Board must fulfill its responsibilities consistent with its fiduciary duties to the Company and its stockholders and in compliance with applicable laws and regulations. To assist our Board with fulfilling its duties, our Board has implemented a leadership structure that supports its oversight responsibilities, created standing and ad hoc committees to formally handle duties that our Board deems significant, and adopted policies and procedures that reflect our Board's commitment to good corporate governance, including Corporate Governance Guidelines, a Code of Conduct and a policy to approve transactions with related parties.

Board Leadership

Our Board believes that whether to have the same individual occupy the offices of Chairman of the Board and CEO should be decided by the Board, from time to time, in its business judgment after considering relevant factors, including the specific needs of the Company and what is in the best interests of the Company and its stockholders.

Currently, the roles of Chairman and CEO are separated, which our Board believes is appropriate. Separation of the roles allows Mr. Stevenson to focus on managing the daily operations of the Company in his role as CEO, while Mr. Fredrickson oversees our Board's significant functions. As Executive Chairman, Mr. Fredrickson has leveraged his extensive experience in the financial sector and past daily operational management experience to effectively and efficiently guide our Board by focusing its attention on issues of greatest importance to the Company and its stockholders.

Our Corporate Governance Guidelines provide that a Lead Independent Director shall be selected by the independent directors whenever the individual selected to serve as Chairman of the Board is also the CEO or otherwise not independent. Lance L. Weaver currently serves as the Lead Independent Director since Mr. Fredrickson is not independent. Mr. Weaver's duties and responsibilities as the Lead Independent Director include:

- presiding at all meetings of the independent directors,
- consulting with the Chairman and CEO concerning the agenda for Board meetings,
- serving as liaison between the independent directors and the Chairman,
- being available to advise Committee chairs in fulfilling their designated roles and responsibilities with the Board,
- being available for consultation and direct communication with stockholders where appropriate, upon reasonable request, and
- leading the annual evaluation of the Chairman and CEO.

Code of Conduct

Our Board has adopted a Code of Conduct, which applies to our directors and all employees of the Company, including our CEO, CFO and principal accounting officer. Our Code of Conduct, which can be found on our website at www.pragroup.com, governs the work behavior and business relationships of the Company's directors, officers, employees and independent third parties acting on behalf of the Company and sets forth the Company's policies regarding ethics and standards of business conduct, including conflicts of interest and insider trading. We will disclose amendments to our Code of Conduct, as well as any waivers of the Code, on our website as permitted by SEC rules. During 2018, there were no waivers of our Code of Conduct for any director or executive officer.

Board's Role in Risk Oversight

Our Board recognizes that the Company faces a broad range of risks, including financial, regulatory, operational, political, reputational, governance, and legal, that may affect the Company's ability to execute corporate strategies and fulfill business objectives. The Board is responsible for overseeing the Company's risk profile and management's processes for assessing and managing risk, while management is responsible for daily risk management.

The Board has assigned to its Committees responsibility for reviewing, evaluating and making recommendations to the Board concerning important risk categories that fall within their scope of responsibility, including the following:

- The Audit Committee receives quarterly updates from the CFO and KPMG on financial risks, compliance with reporting requirements, and internal controls. The Audit Committee also receives quarterly reports from the Company's internal audit department on the results of internal audit activities. These findings are communicated to the Board for consideration and action when appropriate.
- The Compensation Committee designs the Company's compensation programs and incentives to discourage excessive risk-taking. The Compensation Committee, with assistance from Frederic W. Cook & Co. ("FW Cook"), the Compensation Committee's independent compensation consultant, has reviewed the Company's compensation policies and practices for all employees, including our NEOs, as they relate to risk management practices and risk-taking incentives, and has determined that there are no risks arising from these policies and practices that are reasonably likely to have a material adverse effect on the Company.
- The Compliance Committee oversees matters of non-financial compliance, significant legal or regulatory compliance exposure and material reports or inquiries from government or regulatory agencies.

Management's role in assisting the Board with its risk oversight responsibility is critical. The Chief Compliance Officer attends all meetings of the Compliance Committee and meets in executive session with the Board at least quarterly. Other members of senior management routinely attend Board meetings and report on their activities, including significant risks. These reports include risk considerations and discussions concerning actions and strategies for monitoring, managing and mitigating any risks identified. The Company's Compliance Department documents known compliance risks, assesses the sufficiency of risk identification, and recommends risk management and mitigation strategies.

Policy for Approval of Related Party Transactions

Our Board has adopted a written policy for review, approval and disclosure of transactions between the Company and directors, director nominees, executive officers, beneficial owners of more than 5% of the Company's common stock and immediate family members of any of the foregoing (each, a "related party"). Under our Related Party Transaction Policy, the Nominating and Corporate Governance Committee must approve or ratify all related party transactions involving amounts greater than \$120,000 in a calendar year and in which a related party has a direct or indirect material interest. Under the Policy, certain transactions with related parties are deemed pre-approved, such as transactions in which the related party's interest arises solely from the person's service as a director of another entity that is a party to the transaction, certain charitable contributions and transactions determined by competitive bids. In assessing a related party transaction, the Nominating and Corporate Governance Committee considers several factors including, the commercial reasonableness of the terms of the transaction, the materiality of the transaction to the Company and the impact of the transaction on the related party's independence.

Our Board and its Committees

Building Our Board

Our Board recognizes that the duties and responsibilities of a director require highly skilled individuals with diverse qualities, skills, attributes and professional experience. Our Board and the Nominating and Corporate Governance Committee consider the qualifications of directors and director candidates individually and in the broader context of our Board's overall composition and the Company's current and future needs. The Nominating and Corporate Governance Committee reviews potential candidates for director vacancies and recommends nominees to our Board for approval and may retain, from time to time, a third-party search firm to assist in identifying potential candidates.

Our Board and Nominating and Corporate Governance Committee have determined that there are general requirements for service on the Board that all directors must possess, including the following:

- high integrity and ethical standards;
- commitment to representing the long-term interests of stockholders;
- a proven record of success in the individual's field;
- an understanding of, and respect for, good corporate governance practices;
- a high degree of financial literacy;
- experience leading complex organizations;
- the ability to devote the time necessary to properly discharge the duties associated with serving as a director, including attending and participating in Board and Committee meetings;
- intangible qualities such as willingness to ask difficult questions while continuing to work collegially with other directors and management; and
- an appreciation for diversity and inclusion.

While our Board does not have a specific diversity and inclusion policy, it does consider diversity of race, ethnicity, gender, age, cultural background and professional experiences in evaluating candidates for Board membership.

Director Qualifications

In addition to the characteristics each director must possess, our Board and the Nominating and Corporate Governance Committee have identified certain qualifications, experiences, knowledge, skills and abilities that are important to be represented on our Board as a whole, in light of the Company's current needs and business priorities. The table below reflects the specific qualifications and experiences of each director that led our Board to conclude that the director is qualified to serve on our Board. While we expect each director to be knowledgeable in these areas, a "✓" in the chart below indicates that the item is a specific qualification or experience that the director brings to our Board. The absence of a "✓" for a particular item does not necessarily mean that the director does not possess that qualification or experience.

Each standing Committee operates pursuant to a written charter, which is available on the Investor Relations section of the Company's website. All members of the standing Committees are independent as defined by NASDAQ Stock Market ("NASDAQ") listing standards and SEC rules. (1) Amounts represent the aggregate grant date fair value of the stock awards calculated by multiplying the number of unvested shares granted by the closing price of the Company's common stock on the grant dates which was the date of the 2018 Annual Meeting. The actual amount of compensation realized by a director will depend upon the market price of the Company's common stock on the vesting date.

(2) Ms. Connelly was appointed to the Board effective January 1, 2018 and received a prorated equity award valued at \$49,984 on the grant date for her service before the 2018 Annual Meeting.

In addition to the compensation described above, each non-employee director is reimbursed for travel expenses incurred for attending Board meetings and reasonable expenses associated with participating in continuing education programs. The Company offers no retirement benefits or perquisites to directors. The Company maintains policies of directors' and officers' liability insurance covering all directors.

Mr. Fredrickson, who serves as the Executive Chairman of the Board and is not an executive officer of the Company, does not receive compensation for his service as a director. However, Mr. Fredrickson receives compensation from the Company consistent with the terms of the First Amended Executive Chairman Agreement dated May 18, 2018. This Agreement, which expires December 31, 2019, provides for a base salary of \$600,000 and a target bonus of \$650,000. For 2018, the Compensation Committee approved a cash bonus for Mr. Fredrickson under the Company's 2018 Annual Bonus Plan of \$585,000, which was 90% of target, and equity awards valued at \$1,500,000 on the date of grant, with terms consistent with those described under "LTIP Awards" on page 27 of this Proxy Statement.

Director Stock Ownership Guidelines

Recognizing that each director should have a substantial personal investment in the Company, our Board has adopted stock ownership guidelines that apply to each non-employee director, which requires beneficial ownership by each non-employee director of shares of the Company's common stock valued at not less than five times the director's annual cash retainer for serving on our Board. Directors are expected to acquire and maintain this share ownership threshold within five years after joining our Board. As of March 31, 2019, all non-employee directors who have served on our Board for at least five years have met the stock ownership requirement.

Proposal 1: Election Of Directors

Our Board currently consists of 11 members. Our Certificate of Incorporation provides that our Board shall be divided into three classes with each class consisting of approximately one-third of the total number of directors. Each director serves a three-year term or, if earlier, until the director's resignation, death or removal, and one class of directors is eligible for election at each annual meeting of stockholders. Nominees for director that receive the affirmative votes of a plurality of shares represented and voting in person or by proxy at the Annual Meeting will be elected.

The Nominating and Corporate Governance Committee recommended to the Board that John H. Fain, Geir L. Olsen, and Kevin P. Stevenson be nominated for election to the Board to serve until the 2022 Annual Meeting of Stockholders. Any nominee for director who receives a greater number of votes withheld than votes for the director's election must tender the director's resignation for consideration by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will then consider the best interests of the Company and its stockholders and will recommend to the full Board what action should be taken with respect to the tendered resignation.

Messrs. Fain, Olsen and Stevenson have each consented to serve as a director if elected. We have no reason to believe that any of the nominees will be unable or unwilling for good cause to serve. However, if any nominee should become unable or unwilling to serve, proxies may be voted for another person nominated as a substitute by the Board or the Board may reduce the number of directors. If the Board nominates a substitute, the shares represented by all valid proxies will be voted for that nominee.

The Company did not receive any nominations or recommendations for director from stockholders for consideration at the Annual Meeting.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF EACH DIRECTOR NOMINEE.

Proposal 2: Ratification of Appointment of Independent Auditor

The Audit Committee is responsible for the engagement, compensation and oversight of the Company's independent registered public accounting firm. As ratified by stockholders at the 2018 Annual Meeting, the Audit Committee appointed KPMG to serve as the Company's independent registered public accounting firm for the year ended December 31, 2018. KPMG has served as the Company's independent registered public accounting firm since 2007.

In evaluating the performance and considering the engagement of KPMG, including whether to rotate firms, the Audit Committee considers various factors, including KPMG's capability and expertise in handling the scope and complexity of our audit, information related to audit effectiveness, the professionalism of KPMG's team, the current level and quality of service, fees, and the potential impact of changing firms. The Audit Committee is directly involved in the selection of the lead engagement partner in conjunction with the periodic, mandated rotation of the lead partner. Based on these factors, the Audit Committee determined that the continued engagement of KPMG as our independent registered public accounting firm is in the best interests of the Company and its stockholders. As a result, the Audit Committee has selected KPMG to serve as the Company's independent registered public accounting firm for the year ending December 31, 2019.

Although not required to do so, the Board is submitting the appointment of KPMG for ratification by the Company's stockholders as a matter of good corporate governance practice. The Audit Committee is not required to take any action based on the outcome of the vote on this Proposal 2. However, if our stockholders do not ratify the appointment of KPMG, the Audit Committee will consider whether to select a different independent registered public accounting firm. Even if the selection of KPMG is ratified by the stockholders, the Audit Committee, in its discretion, may appoint a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders. Representatives of KPMG are expected to attend the Annual Meeting, will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate stockholder questions.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2019.

Audit Committee Pre-Approval Policies and Procedures

In the event that the Audit Committee Chair provides such pre-approval, the Audit Committee Chair will report any pre-approval decisions to the Audit Committee at its next meeting. During 2018, all audit, audit-related and permissible non-audit services provided by KPMG were pre-approved by the Audit Committee or Audit Committee Chair. The Audit Committee has considered the provision of these services by KPMG and has determined that the services are compatible with KPMG maintaining its independence.

Responsibilities

The Audit Committee's written charter, adopted by the Board of Directors, outlines the Committee's organization, meeting protocol, and responsibilities. The Committee reviews the charter annually and recommends amendments as necessary to the Board for its approval. In carrying out its responsibilities, the Audit Committee meets regularly, together with management, the internal auditor, and KPMG. During these meetings, the Committee reviews and discusses draft financial statements and earnings releases, significant accounting and financial reporting matters, and the results of internal and external audit work. The Committee also meets in periodic executive sessions with KPMG to discuss the overall quality of the Company's financial reporting and any other matters as appropriate. Additionally, the Audit Committee meets in periodic executive sessions with each of the Chief Financial Officer and the head of the Company's internal audit department.

The Audit Committee relies on the knowledge and expertise of management and KPMG in carrying out its oversight responsibilities. Management is responsible for preparing the Company's consolidated financial statements, maintaining adequate internal control over financial reporting, and assessing the effectiveness of the Company's internal control over financial reporting. KPMG is responsible for conducting independent audits of the Company's consolidated financial statements and internal and control over financial reporting, and for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles and on the effectiveness of the Company's internal control over financial reporting. The Audit Committee's responsibility is to oversee these activities, including discussing with KPMG the scope of, plans for, and results of the annual audit. The Audit Committee is also responsible for oversight of the internal audit function, including its charter, audit plan, budget, performance, and activities.

Report of the Audit Committee

The Audit Committee assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the Company's financial reporting and internal control over financial reporting.

The Audit Committee has reviewed and discussed with management and KPMG the Company's 2018 audited financial statements and the assessment of the effectiveness of the Company's internal control over financial reporting. The Audit Committee has also discussed with KPMG the matters required to be discussed by applicable standards of the Public Company Accounting Oversight Board, including matters relating to the conduct of the audit of the Company's financial statements as well as the quality and reasonableness of the Company's critical accounting policies and estimates, and such other matters as are required to be discussed under auditing standards generally accepted in the United States of America. In addition, the Audit Committee has received from KPMG the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding KPMG's communications with the Audit Committee concerning independence and has discussed with KPMG its independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 for filing with the SEC.

Our Mission and Strategy

We deliver nonperforming loan solutions to clients and customers in a respectful, ethical way using data and analytics to guide business decisions that drive a long-term focus on success and customer care by: Improving Operational Efficiencies and Effectiveness; Developing Customer Engagement & Experience; Capitalizing on Market Potential; Investing in People, Culture & Brand; and Delivering Results, while demonstrating our core values of:

- **Committed** to doing our best work;
- **Accountable** for our actions;
- **Respectful** in our interactions;
- **Ethical** in every situation; and
- **Successful** because we work together as a team.

2018 Business Performance

Our key financial metrics for 2018 included: cash collections, cash efficiency, net operating income, and net income, as well as delivery on strategic goals.

We delivered record cash collections across PRA, which consisted of records in both Americas Core and Europe Core.

- Cash collections were \$1.63 billion, an increase of \$112.6 million or 7%, compared to \$1.51 billion in 2017, led by increases of 10% in Americas Core and 9% in Europe Core.

- The increase in Americas Core was the result of record investment levels in Americas Core in 2017 and 2018, as well as an increase in the number of collectors domestically.
- The increase in Europe Core was the result of solid investment levels in the fourth quarter of 2017.

Our cash efficiency ratio (cash receipts less operating expenses, divided by cash receipts) decreased from 60.8% in 2017 to 58.0% in 2018. The decline in the cash efficiency ratio was impacted significantly by our decision to increase the investment in the legal collections channel in the U.S. Our decision to increase our investment in the legal collections channel was driven by changes in the nature of accounts purchased, the regulatory environment and consumer behavior. In the short term, the increased investment in the legal collection channel results in expenses preceding collections and revenue, but we believe the increased investment will create positive long-term results.

Net operating income and net income were also impacted negatively by our investment in the legal collections channel in the U.S.

- Net income in 2018 was positively impacted by selling a controlling interest in our Brazilian servicing platform, which resulted in a pre-tax gain of \$26.6 million. We believe the transaction strengthened our position in Brazil and increased our earnings potential, as we retained a majority stake in the portfolios and a minority stake in the collections platform.
- Net income in 2017 included the positive impact of a \$73.8 million net after-tax benefit as a result of the Tax Cuts and Jobs Act enacted in late 2017 and a combined pre-tax gain of \$48.5 million on the sale of our government services business and PRA Location Services, LLC.

Strategic Goals

Key accomplishments in 2018 included the following:

Investment in Portfolios – We invested in record levels of portfolios, excluding the year we purchased Aktiv Kapital. Portfolio acquisitions increased 1% to \$1.12 billion, surpassing \$1.11 billion portfolio acquisitions in 2017, including record investment in Americas Core of \$657.1 million, which followed a record year in 2017.

Compliance – We believe we have one of the industry leading compliance programs in the U.S., the most heavily regulated nonperforming loan purchasing market in the world. We utilize this compliance program as a guide when building programs outside of the U.S. while maintaining a focus on the customer journey to recovery.

Digital Collection Development – Digital collections in the U.S. doubled in 2018 as a result of our investment in that channel. We are now building on that success and rolling out improved payment sites across Europe. We improved digital services in the United Kingdom and launched digital capabilities in three of our European markets – Germany, Poland and Spain.

Strategic Relationships – We are focused on building relationships on a global basis which has been positively received, particularly with sellers who value our compliance program.

Government Relations Outreach – We have significantly increased our government relations outreach by adding new talent and meeting with regulators and legislators regarding topics that impact the nonperforming loan purchasing industry.

2018 Incentive Payments

Based on the evaluation of our achievement of the financial metrics and strategic goals discussed above, the Compensation Committee approved cash payouts for NEOs under our 2018 Annual Bonus Plan below target at 92%. The performance components of our annual long-term incentive program ("LTIP") performance stock unit award ("PSU"), which consisted of return on equity ("ROE") and total stockholder return ("TSR"), for the 3-year measurement period ended December 31, 2018 (the "2016 LTIP"), resulted in 0% payout.

Pay-for-Performance Alignment

- Total realized pay for our CEO was, on average, 61% of target during the period from 2016 through 2018. Total incentive compensation for our CEO during this period was 52% of target.
 - The year-by-year breakdown was 54% of target in 2016, 70% of target in 2017 and 60% of target in 2018.
 - Salary reflects salary for the individual serving as CEO at year-end of each respective year (Mr. Fredrickson in 2016 and Mr. Stevenson in 2017 and 2018).
 - Bonus reflects the payout for the individual serving as CEO at year-end of each respective year for the respective year's performance.
 - Mr. Fredrickson's annual LTIP vestings were used for 2016 and 2017 as the vested LTIP awards were granted while he served as CEO. Mr. Fredrickson's LTIP target was used in 2016, when he received the annual grant as CEO. Mr. Stevenson's LTIP target was used in 2017 and 2018 when he received the annual grant as CEO.
 - In 2014, Mr. Fredrickson received a grant of RSUs with a grant date value of \$1 million in consideration for extending his employment agreement for three years. The realization of this grant is shown in 2017 when the grant vested.
- During the period from 2016 through 2018, cash bonuses for our NEOs paid out on average 70% of target, with all three years reflecting below target payouts.
 - Average annual bonus plan payouts were 49% of target for 2016, 73% of target for 2017 and 92% of target for 2018.
 - Although average annual bonus plan payouts increased from 2017 to 2018, total realized pay decreased as a result of LTIP payouts decreasing year-over-year (see below), which the Compensation Committee considered when determining bonus payouts.
- Our LTIP, which is designed to closely align the interests of our NEOs with those of our stockholders and our performance, saw no payouts for either the ROE component or the TSR component of our 2016 LTIP.

- The payout for the ROE component of the 2016 LTIP was 0%. For comparison, the payout was 40% for the ROE component of the LTIP for the 3-year measurement period ended December 31, 2017 (the “2015 LTIP”) and the payout was 91% for the ROE component of the LTIP for the 3-year measurement period ended December 31, 2016 (the “2014 LTIP”).
- Payouts were 0% for the TSR component of the 2014, 2015 and 2016 LTIPs.

Philosophy and Objectives of Our Executive Compensation Program

Our compensation philosophy and the objectives of our executive compensation program include:

- aligning pay with performance;
- creating commonality of interest between management and stockholders by tying realized compensation to changes in stockholder value;
- maintaining an appropriate pay mix, with an emphasis on performance-based pay and long-term incentive compensation;
- paying competitively based on external market standards and internal parity, while considering emerging trends in executive compensation;
- driving the attainment of the Company’s short- and long-term financial and strategic objectives;
- attracting, retaining and motivating highly skilled executives; and
- focusing on strong governance, applicable regulatory requirements and risk management practices.

Our executive compensation philosophy and program take into consideration the Company’s overall performance against its short- and long-term financial and strategic objectives while maximizing the financial efficiency of the overall program from tax, accounting, and cash flow perspectives.

Decision-Making: Role of the Compensation Committee

Our Board has delegated oversight of our executive compensation program to its Compensation Committee. Among its duties, the Compensation Committee is responsible for approving all compensation for our executive officers. Although the Compensation Committee considers the CEO’s recommendations, the Compensation Committee evaluates independently the CEO’s recommendations and makes all final compensation decisions within the parameters of its compensation philosophy. This process includes the following:

- evaluating the competitiveness of each NEO’s total compensation, including salary, annual bonus and long-term equity incentives;
- reviewing and approving corporate and individual performance goals and objectives for the Company’s incentive compensation plans;
- evaluating individual performance considering these goals and objectives;
- considering any adverse compliance issues when making pay decisions;
- approving changes to each NEO’s total compensation; and
- overseeing employment agreements, including the renewal process.

The Compensation Committee is supported in its work by FW Cook, its independent executive compensation consultant, the CEO (where appropriate), and other members of management.

Decision-Making: Role of the Chief Executive Officer

At the Compensation Committee’s request, our CEO attends portions of the Compensation Committee’s meetings to discuss the Company’s performance and compensation-related matters. While he does not participate in any deliberations relating to his own compensation, he shares his assessment of the performance of the other executive officers with the Compensation Committee. Based on his assessment and the Company’s

overall performance and the performance of the other executive officers, our CEO makes recommendations to the Compensation Committee on certain compensation decisions. The Compensation Committee considers the CEO's recommendations, as well as data and analyses provided by FW Cook (and to a lesser extent, the other members of management), but retains full discretion to approve, or recommend for the independent members of our Board to approve, all executive compensation.

Decision-Making: Role of the Compensation Consultant

FW Cook is the independent executive compensation consultant for, and reports directly to, the Compensation Committee. The Compensation Committee may replace FW Cook or hire additional consultants at any time and retains sole authority to hire any compensation consultant, approve such consultant's compensation, determine the nature and scope of its services, evaluate its performance, and terminate its engagement.

A representative of FW Cook attends Compensation Committee meetings and communicates with the Compensation Committee Chair between meetings, as requested. FW Cook provides various executive compensation services to the Compensation Committee, including advising the Compensation Committee on the principal aspects of our executive compensation program, updating the Compensation Committee on evolving executive compensation practices and trends and providing market information and analysis regarding the competitiveness of our executive compensation program and award values in relation to performance.

During 2018, FW Cook performed the following key services for the Compensation Committee:

- provided an analysis of each NEO's compensation compared to our Compensation Peer Group and other survey data;
- reviewed and provided recommendations to the Compensation Committee on our Compensation Peer Group;
- provided a competitive evaluation of share usage, dilution, and fair value transfer compared to our Compensation Peer Group;
- reviewed and provided advice on the CD&A and related compensation disclosures in this Proxy Statement;
- reviewed and provided input on materials for Compensation Committee meetings;
- reviewed and provided advice on executive compensation philosophy, strategy, practices and policies;
- reviewed the incentive compensation plans in which our NEOs participate;
- completed a risk analysis of the Company's incentive compensation plans; and
- provided a review of the Company's non-employee director compensation program compared to our Compensation Peer Group.

FW Cook provided no other services to the Company or the Committee during 2018. The Committee has assessed the independence of FW Cook pursuant to SEC rules and Nasdaq listing standards and has determined that no known conflict of interest exists that prevents FW Cook from serving as an independent compensation consultant to the Compensation Committee.

Key Features of our Executive Compensation Program

What We Do

Most NEO total compensation is performance-based and salary comprises a modest portion of each NEO's overall compensation.

We target total direct compensation at the market median (50th percentile) of our Compensation Peer Group; we use median as the beginning reference point and the Compensation Committee then adjusts pay based on a comprehensive review of performance.

A portion of executives' target compensation is earned based on PRA's relative stock performance against the Global Industry Classification Standard (GICS) group of publicly traded consumer finance companies.

The Compensation Committee reserves the right to pay cash bonuses in equity in the event that an NEO has not made significant progress towards meeting established guidelines.

We enhance executive officer retention by providing a portion of our long-term equity program in time-based awards with multi-year vesting schedules.

Our Compensation Committee, which is comprised solely of independent directors, engages an independent compensation consultant.

We have adopted "double trigger" vesting for time-based equity awards following a change in control. Our NEOs are not entitled to accelerated vesting of their equity awards on a change in control of the Company or upon a termination of employment unless such termination occurs within six months before or 24 months following such change in control or in the event of the NEO's death.

We maintain strong restrictive covenants in our employment agreements for our NEOs and obtain enhanced restrictive covenants in connection with our equity grants.

We have stock ownership guidelines for our CEO at five times salary, three times salary for our CFO and other executives designated as NEOs in the Company's most recent proxy statement and one times salary for all other executive officers.

We reserve the right to clawback in the event of negative financial restatements. Our award agreements and Annual Bonus Plan provide that the Compensation Committee may cancel or clawback all or any portion of awards or the gain realized on the award and any benefits derived from that award.

What We Don't Do

We believe that neither the design of our compensation programs nor the individual elements of our compensation programs encourage our employees, including our NEOs, to take unnecessary risk or excessive risks. The Compensation Committee annually reviews and approves our compensation strategy and programs and assesses the risks of these programs. This work is done to reduce the likelihood that any risks arising from our compensation programs will have material adverse effect on the Company, in either the short- or the long-term.

We do not base incentive compensation on a single performance metric, and we do not have guaranteed minimum payouts.

We do not provide across-the-board salary increases for our executives. Our Compensation Committee evaluates total compensation for all executives and only adjusts salary when necessary to reflect changes in the executive's responsibilities or in market conditions.

We do not provide our NEOs with excise tax gross-ups.

We generally do not provide our executive officers with perquisites or other personal benefits.

We do not offer any nonqualified deferred-compensation plans or arrangements to our executive officers.

We do not allow hedging or pledging of Company securities.

2018 Executive Compensation Highlights

At the 2018 Annual Meeting, our stockholders approved by 91% of the votes cast, on a non-binding advisory basis, the compensation of our NEOs. In light of the favorable results of this vote, the Compensation Committee did not make substantial changes to our 2018 executive compensation program for our NEOs.

The Compensation Committee believes that our executive compensation program and performance incentives in place in 2018, as more fully described herein, reflect the Company's financial and strategic objectives. The total compensation paid to our NEOs in 2018 reflects the Compensation Committee's commitment to aligning pay with performance. With input from FW Cook, the Compensation Committee took the following 2018 executive compensation actions:

- approved the 2018 Annual Bonus Program and LTIP designs;
- considering the market median, Company and individual performance, expected future contributions, and executive retention, approved the Company's 2018 executive compensation program, including salary increases for Messrs. Graves, Roberts and Lagow; target bonus increases for Messrs. Graves and Lagow; no increases to LTIP targets for any NEO; and no increases to CEO target pay in 2018;
- approved the payment of 2018 cash bonuses at 92% of target on average for all NEOs; and
- certified both TSR and ROE performance at 0% for the 2016 LTIP.

Use of Competitive Data

To maintain the competitiveness of our executive compensation program, the Compensation Committee believes that it is appropriate to establish compensation levels based on benchmarking, as well as information regarding pay practices at comparable companies. Accordingly, the Compensation Committee engaged FW Cook to review and make recommendations relating to the companies included in our 2018 Compensation Peer Group identified above. The Compensation Committee believes the Compensation Peer Group reflects the companies that most closely correlate with us in terms of size and business model and, therefore, include primarily companies in the consumer and specialty finance and data processing industries. The companies included in the Compensation Peer Group are comparable to the Company based on various metrics, including net income, market capitalization and complexity of operations. Revenue is taken into consideration, but not as heavily as the other metrics listed, as not all our cash receipts are represented in our revenue. A significant portion of our cash receipts is recorded as a reduction of principal on finance receivables amortization, rather than as revenue.

We target NEO total direct compensation at approximately the median of our Compensation Peer Group. Actual cash compensation may be above or below the median based on actual performance. Realized long-term equity incentives and total compensation will vary from the median based on actual financial and stock price performance.

With respect to our 2018 Compensation Peer Group, the Compensation Committee, based on the recommendation of FW Cook, approved the removal of Total Systems Services, due to its large revenue and market and the addition of Walker & Dunlop as a size-appropriate company that meets multiple screening criteria and operates in a comparable industry.

In addition to Compensation Peer Group data, the Compensation Committee reviews, but does not place as much emphasis on, financial services compensation survey data reported by the compensation consulting firm of

Willis Towers Watson. The primary focus on the Compensation Peer Group data relates to more direct matches in terms of company size and business mix. The Compensation Committee uses this data to ascertain the competitive market for our NEOs, to determine whether the Company's compensation levels are competitive, and to make any necessary adjustments to reflect executive performance and Company performance. As a part of this process, FW Cook measures target and actual pay levels for the Company and the Compensation Peer Group within each component of our total direct compensation and in the aggregate. FW Cook also reviews the mix of our executive direct compensation components with respect to fixed versus variable, short-term versus long-term and cash versus equity-based pay. This information is then presented to the Compensation Committee for its review and use.

The Compensation Committee generally compares the compensation of our NEOs to the median of the Compensation Peer Group. In addition, the Compensation Committee considers factors such as our performance relative to the Compensation Peer Group, the unique characteristics of the individual NEO's position, and any succession and retention considerations.

Decisions For 2018

The following section contains information on the Compensation Committee's decisions with respect to our NEOs on the various direct compensation components for 2018 and information regarding certain performance measures and goals. These measures and goals are disclosed in the limited context of our executive compensation program. Investors should not apply these performance measures and goals to other contexts. The tables included in this section are in addition to, and not in lieu of, the Summary Compensation Table required by the SEC, which can be found on page 33.

Salary

We pay salaries in order to provide our NEOs with a reasonable level of fixed short-term compensation. Salary levels are typically reviewed at least annually by the Compensation Committee and adjusted as appropriate. Adjustments generally consist of merit increases, promotions or changes in responsibilities, or market adjustments. Salaries are determined on an individual basis. When determining any salary increases, the Compensation Committee considers an individual's total direct compensation, his or her performance, Company performance, comparative peer and market compensation data, internal pay equity, and other relevant factors, including the scope of the executive's responsibilities relative to peers and other executives, and retention concerns.

| Named Executive Officer | 2018 Salary ⁽¹⁾ | 2017 Salary ⁽¹⁾ | Percentage Increase/Decrease from 2017 |
|------------------------------|----------------------------|----------------------------|--|
| Kevin P. Stevenson | \$900,000 | \$900,000 | 0.0% |
| Peter M. Graham | \$450,000 | \$450,000 | 0.0% |
| Christopher B. Graves | \$450,000 | \$440,000 | 2.3% |
| Steven C. Roberts | \$450,000 | \$400,000 | 12.5% |
| Christopher D. Lagow | \$350,000 | \$300,000 | 16.7% |

(1) Reflects final 2017 salary and final 2018 salary.

Effective June 4, 2018, Mr. Roberts assumed additional responsibility for shared oversight of our European operations along with the President of PRA Group Europe. Mr. Roberts' salary increase reflects these expanded duties. In 2018, Messrs. Graves and Lagow received merit increase adjustments to their salaries based on individual performance, salary market positioning relative to peers and internal pay equity, as appropriate.

Annual Bonus Plan

Each year, the Compensation Committee establishes one or more metrics that it will use to measure Company performance for the annual bonus plan. The Compensation Committee believes that over-reliance on a narrow set of fixed financial measures for determination of the annual bonus is not in the best interest of stockholders, as it may result in short-term trade-off decisions not focused on driving future growth. Financial performance, measured on a series of financial measures as well as strategic and qualitative factors, determines the size of the bonus pool. Actual bonus awards are based on Company performance versus financial measures as well as individual contribution and performance.

| Named Executive Officer | 2018 Bonus Paid | 2018 Bonus Target | Bonus Paid as a % of Target |
|------------------------------|-----------------|-------------------|-----------------------------|
| Kevin P. Stevenson | \$810,000 | \$900,000 | 90% |
| Peter M. Graham | \$405,000 | \$450,000 | 90% |
| Christopher B. Graves | \$405,000 | \$450,000 | 90% |
| Steven C. Roberts | \$465,000 | \$450,000 | 103% |
| Christopher D. Lagow | \$225,000 | \$250,000 | 90% |

The Compensation Committee considered the financial results under “2018 Business Performance” and the following operational results when determining bonus payments under the 2018 Annual Bonus Plan:

- portfolio investment and new call centers drove record cash collection in U.S. call centers;
- record portfolio investment in Americas Core of \$657.1 million;
- digital collections doubled since 2017;
- record cash collections in Europe;
- impact of increased investment in our legal collections channel in 2018; and
- net cash proceeds of \$40 million on sale of a majority stake in the RCB Investimentos S.A. nonperforming loan servicing platform, including an approximate \$27 million pretax gain.

Bonus payments for NEOs were paid at 90% of target, except for Mr. Roberts, who received 103% of his bonus target in recognition of his individual performance relating to corporate development and the oversight of European operations.

LTIP Awards

LTIP awards to our NEOs are a mix of PSUs and RSUs consistent with competitive practice. LTIP award amounts are established by reviewing prior year performance, potential future contributions, retention considerations and comparative peer and market compensation data for each NEO’s position in the Compensation Peer Group. LTIP awards are made under our 2013 Omnibus Incentive Plan (“Equity Plan”).

In 2018, we modified our LTIP design by making the following changes:

- changed our mix of 2/3 performance-based awards (PSUs) and 1/3 time-based awards (RSUs) to 60% PSUs and 40% RSUs;
- changed the relative TSR measurement group(s) from our Compensation Peer Group and the Nasdaq Composite Index to the Consumer Finance GICS group, which we believe is a more appropriate peer group, with a stronger correlation to PRA than a broad index; and
- removed ROE as a PSU metric and replaced it with Adjusted EBITDA, which we believe is a more appropriate measurement for our core business. EBITDA is defined as net income (loss) before income taxes, interest expense, interest income and depreciation and amortization. “Adjusted EBITDA” is EBITDA further adjusted to exclude portfolio amortization excluding allowance charges, adjusted to neutralize foreign exchange and merger and acquisitions costs/gains/losses.

As a result of the design changes discussed above, our 2018 LTIP consists of the following:

- an Adjusted EBITDA component (30%, performance based), which the Compensation Committee believes helps evaluate the sustained profitability of the Company, is based on the extent that the Company achieves a three-year cumulative Adjusted EBITDA goal over the 2018-2020 performance period;

| Named Executive Officer | 2018 LTIP Award ⁽¹⁾ | 2017 LTIP Award | Percentage Increase/Decrease from 2017 |
|--|--------------------------------|-----------------|--|
| Kevin P. Stevenson | \$2,200,000 | \$2,200,000 | 0% |
| Peter M. Graham | \$ 500,000 | \$ 500,000 | 0% |
| Christopher B. Graves | \$ 500,000 | \$ 500,000 | 0% |
| Steven C. Roberts⁽²⁾ | \$ 450,000 | \$ 400,000 | 12.5% |
| Christopher D. Lagow | \$ 270,000 | \$ 270,000 | 0% |

(1) Messrs. Graham, Graves, Roberts, and Lagow also received a retention grant of RSUs in connection with the execution of their new employment agreements. This grant is not included in total direct compensation as it is not considered an annual recurring award and, therefore, not part of year-over-year compensation.

(2) Mr. Roberts received an additional RSU award that is included in his 2018 LTIP Award amount in recognition of his additional responsibility of the oversight of our European operations, supporting the President of PRA Group Europe.

- a TSR component (30%, performance based), which aligns NEOs' interests with stockholder interests, is based upon the Company's achievement of relative TSR calculated over the 2018-2020 performance period using a comparator group of companies that are part of the Consumer Finance GICS group; and
- an RSU component (40%, time based) grant vests ratably over three years and is aimed at retaining high caliber executives and rewarding them for past performance.
- Both the TSR and Adjusted EBITDA components are independent of each other and awards can be earned for either component based on the requirements for the component.

Outstanding Performance Share Awards

During 2018, our NEOs had three tranches (award years 2016-2018) of PSU awards outstanding. The key features of these outstanding awards are included below:

| LTIP Award Year | Measure | Performance Period | Percent Achievement |
|-----------------|-----------------|------------------------|---------------------------------------|
| 2016 | ROE | 2016-2018 (3 years) | 0% |
| | TSR | 2016-2018 (3 years) | 0% |
| 2017 | ROE | 2017-2019 (3 years) | To be determined by March 31, 2020 |
| | TSR | 2017-2019 (3 years) | To be determined by March 31, 2020 |
| 2018 | Adjusted EBITDA | 2018-2020 (3 years) | To be determined by March 31, 2021 |
| | TSR | 2018-2020 (3 years) | To be determined by March 31, 2021 |

Realization of 2016 LTIP

In March 2019, it was determined that ROE and TSR PSU awards, which were granted in January 2016 for the three-year performance period of 2016-2018, be paid at 0%.

The target ROE for the 2016-2018 performance period was 16.4%. Actual performance of 10.8% was lower than the threshold of 14.4% and, therefore, no shares were awarded to our NEOs. TSR performance was calculated by comparing one-third of the TSR of companies in the Nasdaq Composite Index and the TSR of the Compensation Peer Group. Performance for the 2016-2018 period was lower than the threshold performance of the 35th percentile and therefore, no shares were awarded to our NEOs.

Other Compensation Matters

Tax-Qualified Plans

The Company offers a 401(k) plan for its employees, including our NEOs. The 401(k) plan is a long-term savings vehicle that enables employees to make pre-tax contributions via payroll deductions and receive tax-deferred earnings on the contributions made. Employees are eligible to make voluntary contributions to the plan of up to 100% of their compensation, subject to limitations under the Internal Revenue Code, after completing six months of service with the Company. The Company makes matching cash contributions of up to 4% of each participating employee's eligible pay. Employees are able to direct their own investments, among a range of investment choices, under the plan.

We periodically compare the competitiveness of our benefits programs, including retirement benefits, for all our employees, including our NEOs, against other employers with whom we broadly compete for talent. It is our objective to provide our employees with a benefits package that is at or around the median when compared to other employers.

Nonqualified Deferred Compensation Plans and Arrangements

The Company does not offer any nonqualified deferred compensation plans or arrangements to any of its employees, including our NEOs.

Employment Agreements

The Company has entered into employment agreements with each NEO that set forth the compensation, benefits, term of employment and other terms and conditions of each NEOs employment ("Employment Agreements"). The Employment Agreements superseded prior employment agreements, the terms of which expired on December 31, 2017.

The Employment Agreements provide for the following:

- A three-year term that commenced on January 1, 2018 and expires on December 31, 2020 with the exception of the CEO's Employment Agreement, which has a term of June 2017 to December 31, 2020;
- A minimum salary, which may, but is not required to, be adjusted upwards during the term of the agreement;
- Eligibility for an annual bonus, as set forth in the Company's annual bonus plan, which will be reviewed annually to determine target participation level and to establish goals and subsequent payout levels. Adjustments can be made to the target participation levels to reflect changes in roles or modifications to pay mix, and target opportunity during the term;
- Eligibility for equity awards;
- Specified severance payments upon the NEO's involuntary termination of employment without cause or as a result of constructive termination, death or disability as described below in the section titled "Post-Employment Compensation Arrangements" (page 37).
- In connection with the execution of their Employment Agreements, each NEO received an equity retention grant in the form of RSUs as described in the Grants of Plan Based Awards table (page 34). These equity retention grants were granted on January 1, 2018; and
- Recovery by the Company of any compensation paid pursuant to their Employment Agreement in accordance with current or future clawback policies instituted by the Company to comply with rules promulgated, if any, pursuant to any law, government regulation or stock exchange listing requirement.

Severance and Change in Control Arrangements

Pursuant to their employment agreements with the Company, our NEOs (or their beneficiaries or estates) are eligible for severance payments and other benefits upon terminations of employment for the following reasons:

- death;
- disability;
- termination for reasons other than cause;
- constructive termination;
- change in control “double trigger” termination; and
- nonrenewal of an employment agreement.

In the case of a termination for cause, no severance payments will be made. We find each of these practices to be typical among our peers and we note that the receipt of severance benefits is subject to our NEOs’ compliance with non-compete/non-solicitation covenants and execution of a release of claims. In no instance will the Company provide excise tax reimbursements or gross-ups to any of our NEOs.

For detailed information on the estimated potential payments and benefits payable to our NEOs in the event of their termination of employment, including following a change in control of the Company, see the section titled “Post Employment Compensation Arrangements” (pages 37-39) in this Proxy Statement.

Perquisites and Other Personal Benefits

We do not provide our executive officers, including our NEOs, with perquisites or other personal benefits, except for comprehensive physical examinations. Our NEOs are encouraged to submit to a comprehensive physical examination every 3-5 years at the Company’s expense, at a cost of approximately \$5,000 each. This perquisite is provided because we believe it serves a necessary business purpose and protects the interests of the organization and stockholders by requiring each NEO to receive high-quality preventative care, thereby increasing the likelihood of early detection for any serious illness that would prevent them from serving the Company to the best of their ability.

Stock Ownership Guidelines

The Company maintains stock ownership guidelines for the Company’s executive officers, including our NEOs. These stock ownership guidelines reflect the Board’s belief in the importance of aligning the economic interests of stockholders and management. The Compensation Committee is responsible for setting and periodically reviewing the guidelines. Guidelines for each executive position are determined based on factors including the executive role, scope of responsibilities, salary levels, Company stock price performance and market data. The stock ownership guidelines establish ownership goals to be achieved and maintained within five years from the date of hire or promotion.

Periodically, the Compensation Committee is provided with a report showing the extent to which our executives have met the applicable ownership guidelines. This report includes targeted share ownership, actual share ownership, our executives’ remaining non-vested RSUs, and any surplus or deficiency that exists. The Compensation Committee may determine whether, based on the executive’s success in achieving the executive’s stock ownership target, the executive’s annual bonus, if any, can be paid in stock, rather than in cash. To permit consistent long-term planning by an executive, once established, targets are not reset except upon the approval of the Compensation Committee in the event of a promotion of the executive, exceptional equity grants, or other considerations.

The following chart details the equity ownership targets established for our NEOs and their progress towards those targets. As of the Record Date, each NEO has achieved their individual equity ownership target or is on track to reach their target within five years of becoming an NEO.

Pledging

The Company's Anti-Pledging Policy prohibits its directors, officers and employees from pledging, alienating, attaching or otherwise encumbering the Company's stock and any purported pledge, alienation, attachment or encumbrance thereof is void and unenforceable against the Company or any affiliate of the Company.

Hedging

The Company's Anti-Hedging Policy prohibits its directors, officers and employees from speculating or hedging their interests in the Company's stock. Accordingly, directors, officers and employees may not "play the market" in Company securities by engaging in speculative transactions such as any direct or indirect hedging transaction that could reduce or limit the individual's economic risk with respect to his or her holdings, ownership or interest in the common stock or other securities of the Company, including outstanding stock options, stock appreciation rights or other compensation awards the value of which are derived from, make reference to or are based on the value or market price of common stock or other securities of the Company. Prohibited transactions include same day purchase and sales, prepaid variable forward contracts, equity swaps, short sales, collars, puts, calls or other derivative securities that are designed to hedge or offset a decrease in market value of the equity securities of the Company.

Clawback

In the event of a restatement of the Company's financial statements that reduces the amount of the awards that would have been paid or vested had the financial results been properly reported, the Compensation Committee may cancel or clawback all or any portion of awards, cash and equity, or the gain realized on the award. In addition, all awards, cash and equity (and the benefits derived from the awards), are subject to recovery by the Company if required by rules adopted by the SEC or the NASDAQ Stock Exchange to implement Section 10D of the Exchange Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act, or any other applicable rule, regulation or law.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility of certain executives' compensation that exceeds \$1 million per year. The executive officers subject to Section 162(m) (the "Covered Employees") include any individual who served as the CEO or CFO at any time during the taxable year and the three other most highly compensated officers (other than the CEO and CFO) for the taxable year, and once an individual becomes a Covered Employee for any taxable year beginning after December 31, 2016, that individual remains a Covered Employee for all future years, including following any termination of employment.

The Compensation Committee carefully considers the tax impacts of its compensation programs on the Company, as well as on its executives. It is the Committee's intent to maximize tax deductibility to the extent reasonable, provided the Company's programs remain consistent with the Company's overall executive compensation objectives. While the Compensation Committee is mindful of the potential impact upon the Company of Section 162(m), it reserves the right to adopt such compensation arrangements as may from time to time be desirable to reward, retain or attract top-quality management even if payments may not be fully or partially deductible under Section 162(m). The Compensation Committee believes that the tax deduction limitation should not be permitted to compromise our ability to design and maintain executive compensation arrangements that will attract and retain the executive talent to enable the Company compete successfully.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the section of this Proxy Statement entitled "Compensation Discussion and Analysis" with management. Based on this review and discussion, the Compensation Committee has recommended to our Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

- (1) The amounts represent the aggregate grant date fair value of the stock awards granted in 2018, 2017 and 2016 determined pursuant to Accounting Standards Codification ("ASC") Topic 718. The assumptions used by the Company in calculating these amounts are incorporated by reference to Note 9 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2018. Stock awards consist of time-based RSUs and performance-based PSUs awarded under the LTIP (see pages 27-28 for a more complete description of the LTIP). The actual amount of compensation that will be realized by the NEO at the time the stock award vests, if at all, will depend upon the market price of the Company's common stock on the day prior to vesting date. The value as of the grant date of the maximum number of shares that could vest under the 2018 LTIP PSU awards is as follows: Mr. Stevenson, \$3,519,907; Mr. Graham, \$1,249,973; Mr. Graves, \$1,249,973; Mr. Roberts, \$1,089,796; and Mr. Lagow, \$781,916. For more information on the awards granted during 2018, see the *Grants of Plan-Based Awards* table, related narrative, and footnotes (page 34).
- (2) For Messrs. Stevenson, Graham, Graves, and Lagow, these amounts represent Company matching contributions to the recipient's 401(k) plan account up to limits for such plans under federal income tax rules. Any amounts for executive physicals (the only perquisite or personal benefit provided to our NEOs) have not been included as they are less than the \$10,000 threshold under SEC rules. For Mr. Roberts, the amount for 2018 represents (a) \$23,313 in expenses related to spousal travel (tax gross-up was not provided to Mr. Roberts) and (b) \$11,000 in Company matching contributions to his 401(k) plan account, the limit under federal income tax rules.

(1) During 2018, our NEOs were awarded the following plan-based awards: annual short-term incentive award ("STI") under our annual bonus plan and time-based RSUs and performance-based PSUs under our LTIP. Vesting of the PSUs is based on two components: Adjusted EBITDA ("PSU/Adj EBITDA") and TSR ("PSU/TSR").

(2) The amounts represent the range of possible payouts of the STI from \$0 at threshold to \$5,000,000.

(3) The amounts represent the range of possible payouts of the PSUs from 0% at threshold to 200% of target (maximum). The PSUs will not vest if the performance criteria are not met.

(4) The amounts represent RSUs - for grant date 03/07/2018 for all NEOs, one-third vests on each anniversary of the grant date over three years; for grant date 01/01/2018 for Messrs. Graham, Graves, Roberts and Lagow, 100% vests on the third anniversary of the grant date; and for grant date 06/15/2018 for Mr. Roberts, one-third vests on each anniversary of the grant date over three years.

(5) The amounts represent the aggregate grant date fair value of each award, calculated by multiplying the fair value on the grant date by the number RSUs and the target amount for the PSUs/Adjusted EBITDA and the PSUs/TSR. The fair value of the RSUs and the PSUs/Adjusted EBITDA is the closing price of the Company's common stock on the grant dates and the fair value of the PSUs/TSR is determined using a Monte Carlo simulation as of the grant date in accordance with ASC Topic 718. For Messrs. Graham, Graves, Roberts and Lagow the grant date fair value of RSUs was \$33.20 for grant date 01/01/2018. For all NEOs, the grant date fair value of RSUs and PSUs/Adjusted EBITDA was \$39.40 and the grant date fair value of PSUs/TSR was \$57.12 for grant date 03/07/2018. For Mr. Roberts, the grant date fair value of RSUs was \$41.45 for grant date 06/15/2018.

(See pages 27-28 for a description of the LTIP).

(2) The amounts represent the fair market value using \$24.37, closing price of the Company's common stock on December 31, 2018.

(3) The performance component of the LTIP awards will not vest or be awarded if the Company does not achieve its minimum threshold performance targets, as described more fully on pages 27-28. If such targets are met, the number of shares to be received by each NEO will be determined based on actual performance.

(2) Closing market price of the Company's common stock to calculate value of shares at vesting is the day prior to the vesting date.

Post-Employment Compensation Arrangements

Each NEO has an employment agreement that provides for the payment of specified severance benefits upon termination of employment under some or all of the following circumstances:

- death;
- disability;
- termination for reasons other than cause;
- constructive termination;
- change in control “double trigger” termination; and
- nonrenewal of an employment agreement.

Depending on the circumstances of the termination, these severance benefits may include cash payments equal to a specified multiple of salary and bonus (using a three-year average), pro-rata bonuses, accelerated vesting of equity incentive awards and subsidized COBRA benefits for 18 months.

The Estimated Post-Employment Payments and Benefits Table that follows this narrative summarizes such severance payments and benefits. In the case of a termination for cause, no severance payments will be made. Severance payments are conditioned on the executive’s execution of a full release of all claims against the Company. While their employment agreements provide our NEOs with certain benefits upon their involuntary termination (not for cause), the agreements also provide protections for the Company in the form of non-competition, non-solicitation, and confidentiality restrictive covenants. None of our NEOs are provided with any type of golden parachute or excise tax reimbursement or gross-up.

The amounts in the following table were calculated based upon employment agreements in effect as of December 31, 2018 and an assumed termination date of December 31, 2018. The amounts reported in the following table are hypothetical. Actual payments will depend on the circumstances and timing of any termination of employment. Because the assumed termination date is December 31, 2018, we have used the full year target non-equity incentive plan awards.

Graham, Roberts and Lagow, severance for termination without Cause/Constructive Termination, as set forth in the employment agreements, provides two years' salary, two times the employee's three-year average annual non-equity incentive award, and subsidized COBRA reimbursements for 18 months. Pursuant to the terms of Messrs. Graham's, Robert's and Lagow's employment agreement, severance for termination without Cause/Constructive Termination, as set forth in the employment agreements, provides one-year salary and the employee's three-year average annual non-equity incentive award, and subsidized COBRA reimbursements for 18 months.

(2) NEOs receive severance payments and vesting of equity grants accelerate in the case of a change in control and an involuntary termination without Cause or Constructive Termination within the periods that are six months before and 24 months after the change in control (referred to as "double trigger" in the employment agreements).

- (3) Pro-rata bonus (based upon actual Company performance and the days of employment in the calendar year of termination) other than for (a) voluntary termination by NEO, (b) termination due to disability, as set forth in the employment agreements, (c) death, or (d) nonrenewal, as set forth in the employment agreements. Pro-rata bonus has been estimated at the full-year target amount.
- (4) Equity values represent immediate vesting of all unvested grants upon involuntary termination without Cause or Constructive Termination in connection with a change in control, death and disability and are based on the closing price of the Company's common stock (\$24.37) on December 31, 2018 of all unvested shares as of December 31, 2018.

CEO Pay Ratio

For 2018, our last completed fiscal year:

- the annual total compensation of our median employee was \$34,734;
- the annual total compensation of the CEO was \$3,920,953; and
- we estimate that the ratio of the annual total compensation of our CEO to our median employee was 113 to 1.

In accordance with SEC rules, we selected a median employee for 2018 who had compensation that was similar to our 2017 median employee because our 2017 median employee was subsequently promoted and, as a result, her compensation changed. Although our employee population increased in 2018 largely due to the addition of two new call centers located in the United States, the average total compensation of the employees at our new locations was similar to the compensation of our median employee for 2017. Thus, we believe there has been no change in our employee compensation arrangements or employee population that would result in a significant change to our pay ratio disclosure for 2018; accordingly, we did not re-identify a median employee for 2018.

Based on our payroll and employment records, we identified the median employee from an employee population of 4,439 individuals on September 30, 2017. Our employee population included all US-based and internationally-based employees as of September 30, 2017. We included the following pay elements in the total compensation for each employee:

- salary received,
- overtime pay received, and
- incentive compensation payments received.

We identified our median employee for 2017 by: (1) calculating the total compensation using the pay elements described above for each of our employees and (2) ranking the total compensation of all employees (other than our CEO) from lowest to highest.

After identifying a median employee for 2018 whose compensation was similar to our median employee for 2017, we calculated annual total compensation for our 2018 median employee using the same method used to calculate our CEO's annual total compensation for 2018 as reported in the Summary Compensation Table in this Proxy Statement.

Voting Instructions and Other Information

Shares of our common stock may be held directly in your own name (in which case you are considered the “record holder”) or may be held beneficially through a broker, bank or other nominee in street name.

Summarized below are some distinctions between shares held of record and those owned beneficially.

Record Holder – If your shares are registered directly in your name with Continental Stock Transfer & Trust, our transfer agent, you are considered the stockholder of record with respect to those shares, and we are providing proxy materials directly to you. As the record holder, you have the right to vote in person at the Annual Meeting or to grant your voting proxy to the persons designated by us or a person you select.

Beneficial Owner – If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of the shares held in street name, and you have been provided proxy materials from your broker, bank or other nominee who is considered the record holder with respect to the shares. As the beneficial owner, you have the right to direct the broker, bank or other nominee on how to vote your shares and are also invited to attend the Annual Meeting. Your broker, bank or other nominee is obligated to provide you with a voting instruction card for you to use. However, since you are not the record holder, you may not vote these shares in person at the Annual Meeting unless you bring with you to the Annual Meeting a legal proxy, executed in your favor, from the record holder.

If you are a beneficial owner and require assistance in changing or revoking your voting instruction form, contact the institution that holds your shares.

Inspector of Elections

Alliance Advisors, LLC ("Alliance") has been appointed by the Board to act as the inspector of election for the Annual Meeting. The inspector of election will tabulate the votes cast by proxy or in person at the Annual Meeting, and will determine whether a quorum is present. If a quorum is not present, the Annual Meeting will likely be adjourned or postponed in order to solicit additional proxies.

Cost of Proxy Solicitation

The Company will bear the entire cost of proxy solicitation and has engaged Alliance to assist in the solicitation of proxies. Alliance will receive a fee of approximately \$11,500 plus reasonable out-of-pocket expenses for this work. We will also reimburse banks, brokers or other custodians, nominees and fiduciaries for their expenses in forwarding the proxy materials to beneficial owners and seeking voting instructions. In addition, proxies may be solicited by directors, officers and other employees of the Company who will not receive any additional compensation for such solicitation.

Attending the Annual Meeting

If you plan to attend the Annual Meeting, you will be asked to present valid government-issued photo identification, such as a driver's license, in order to gain admission. If you are a record holder, you will need to bring your proxy card or other documentation showing that you owned shares of the Company's common stock on the Record Date. You will not be able to vote your shares at the Annual Meeting without a proxy card or such other documentation. If you require special assistance due to a disability or other reason, please notify the Corporate Secretary in writing at 120 Corporate Boulevard, Norfolk, Virginia 23502, Attention: Corporate Secretary, or by email at corporatesecretary@pragroup.com.

If your shares are held by a broker, bank or other nominee, you are the beneficial owner of the shares, but not the record holder. Therefore, you must bring one of the following with you to the Annual Meeting: the proxy card, Notice of Internet Availability of Proxy Materials, any voting instruction form that is sent to you, or your most recent brokerage statement or a letter from your broker, bank or other nominee indicating that you beneficially owned the shares of common stock as of the Record Date. If you intend to vote at the Annual Meeting, you will also need to bring to the Annual Meeting a proxy from your broker, bank or other nominee that authorizes you to vote the shares that the holder of record holds for you in its name.

Broker Non-Votes

Brokers, banks or other nominees holding shares in street name for customers who are beneficial owners of such shares are prohibited from voting such customers' shares on non-routine matters in the absence of specific instructions from such customers. If you do not provide your voting instructions on a non-routine matter, your shares will not be voted on that matter, which is referred to as a "broker non-vote." If your shares are held in street name, it is critical that you provide specific instructions to your broker, bank or other nominee if you want your vote to count. The ratification of the appointment of KPMG as the Company's independent registered public accounting firm (Proposal 2) is considered a routine matter. Therefore, the entity that holds your shares may vote on this matter without instructions from you. On the other hand, the election of directors (Proposal 1) and the approval on a non-binding, advisory basis of the compensation of our NEO's (Proposal 3) are considered non-routine matters. As a result, if you do not provide specific instructions, any shares held in street name will not be counted as shares present and entitled to be voted with respect to such non-routine matters and will have no impact on the outcome of such non-routine matters.

If you received more than one proxy card, you may hold shares in more than one account. To ensure all of your shares are voted, you must sign and return each card you receive. Alternatively, if you vote online via the Internet or by telephone, you will need to vote once for each proxy card you receive.
