We were patient and waited for significant changes in pricing across Europe to occur and are now investing strongly in most geographies. It has been our long-held philosophy that to be successful, we must be both an accurate and disciplined investor as well as an efficient and compliant collector," said Kevin Stevenson, president and chief executive officer. "In the U.S., we are benefiting from the results of our past investments in the legal channel and increasing operating leverage through advancements in collection technologies and processes including the continued build out of digital capabilities. In Europe, we had a similar operational focus that ensured we were prepared to efficiently capitalize on this improving market. As a result, global cash collections, total revenues, and income from operations grew at double digit rates."

- Cash collections in the quarter increased \$63.9 million compared to the third quarter of 2018. The increase was primarily due to a 35% increase in U.S. legal collections, a 16% increase in Europe Core collections and a 9% increase in U.S. call center and other cash collections. Investments in the legal collections channel and operational efficiencies continue to generate positive results driving cash collections in the U.S. higher. Increased portfolio investment over the trailing twelve months, as the result of an improving investment environment, contributed to the increase in cash collections in Europe. For the nine months ended September 30, 2019, cash collections increased \$162.2 million compared to the same period last year.
- For the quarter, cash collections on fully amortized pools were \$11.3 million and cash collections on nonaccrual pools were \$2.8 million.
- Income recognized on finance receivables increased \$24.2 million compared to the third quarter of 2018 primarily due to yield raises and increased portfolio investment. For the nine months ended September 30, 2019, income recognized on finance receivables increased \$74.7 million compared to the same period last year.

Expenses

- Operating expenses in the quarter increased \$7.7 million compared to the third quarter of 2018 largely due to an increase in legal collection fees and agency fees, partially offset by a decrease in compensation and employee benefits in the U.S. The increase in legal collection fees is directly related to the significant increase in external legal cash collections. Agency fees increased primarily due to an increase in cash collections in areas where the Company utilizes third party collection firms.
- For the nine months ended September 30, 2019, operating expenses increased \$53.2 million compared to the same period last year.
- Interest expense increased \$5.2 million compared to the third quarter of 2018 mainly due to higher levels of average borrowings primarily from increased portfolio investment.
- The effective tax rate for the nine months ended September 30, 2019 was 19.0%.

Portfolio Acquisitions

- The Company invested \$279.0 million in finance receivables in the third quarter.
- At the end of the third quarter, the Company had in place forward flow commitments of \$725.1 million.
