- Debt to Adjusted EBITDA¹ for the last twelve months was 1.90x, a decrease from 2.54x at December 31, 2019.
- Total portfolio purchases of \$177.6 million.
- Estimated Remaining Collections (ERC) of \$6.3 billion.

"The third quarter of 2020 built upon the trends that we saw during the first half of the year. We produced record quarterly global cash collections driven by growth in both the Americas and Europe. U.S. cash collections continued to be strong and Europe cash collections grew as countries relaxed restrictions and courts returned to more normal operations," said Kevin Stevenson, president and chief executive officer. "Investment levels in Europe were strong in a quarter that is typically seasonally softer as sellers restarted their sales processes. In the U.S., supply was impacted by lower bankruptcy filings and payment deferral programs which depressed charge-off volumes during the quarter. Based on the significant loss provisioning by most financial institutions, we believe that charge-off rates will rise over the next year, increasing supply globally."

- Cash collections in the quarter increased \$66.1 million compared to the third quarter of 2019. The increase was primarily due to a 37% increase in U.S. call center and other cash collections and an 11% increase in Europe Core cash collections. This was partially offset by a decrease in Americas Insolvency cash collections where investment levels did not offset the runoff of older portfolios. For the nine months ended September 30, 2020, cash collections increased \$139.2 million compared to the same period last year.
- Portfolio income was \$240.3 million compared to \$247.5 million in income recognized on finance receivables in the third quarter of 2019. For the nine months ended September 30, 2020, portfolio income was \$750.6 million compared to \$735.5 million in income recognized on finance receivables for the same time period in 2019.
- Changes in expected recoveries were a net positive of \$25.4 million. This reflects \$89.0 million in recoveries in excess of forecast from overperformance during the quarter, partially offset by a negative \$63.6 million adjustment for changes in expected future recoveries as the Company has assumed the majority of the current quarter overperformance is acceleration of future collections and made cash forecast adjustments deemed appropriate given the current environment in which the Company operates.

Expenses

- Operating expenses in the quarter decreased \$2.0 million compared to the third quarter of 2019. The decrease was primarily driven by a reduction in legal collection costs mainly as a result of the Company's decision earlier in the year to temporarily pause moving accounts into a legal eligible status in the U.S. and a shift in collections from the legal channel to the call center and digital channels. In addition, there was a decrease in compensation and employee benefits from a reduction in U.S. call center staff as a result of efficiencies realized through technology and data and analytics. For the nine months ended September 30, 2020, operating expenses decreased \$28.5 million compared to the same period in 2019.
- Interest expense, net decreased \$2.2 million compared to the third quarter of 2019 primarily due to lower average interest rates. For the nine months ended September 30, 2020, interest expense, net was almost flat to the same period in 2019.
- The effective tax rate for the nine months ended September 30, 2020 was 15.9%.

Portfolio Acquisitions

- The Company purchased \$177.6 million in finance receivables in the third quarter of 2020.
- At the end of the third quarter, the Company had in place forward flow commitments of up to \$395.6 million with \$343.8 million in the Americas and \$51.8 million in Europe.

Use of Non-GAAP Financial Measures

PRA Group, Inc. reports financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, management uses certain non-GAAP financial measures, including adjusted EBITDA, internally to evaluate the Company's performance and to set performance goals. Adjusted EBITDA is calculated as net income attributable to PRA Group, Inc. plus interest expense, net and other; plus income tax expense (or less income tax benefit); plus depreciation and amortization; plus recoveries applied to negative allowance; less gain on sale of subsidiaries; less foreign exchange gain (or plus foreign exchange loss); and plus net income attributable to noncontrolling interests. Adjusted EBITDA is a supplemental measure of performance that is not required by, or presented in accordance with, GAAP. PRA Group, Inc. presents adjusted EBITDA because the Company considers it an important supplemental measure of operations and financial performance. Management believes adjusted EBITDA helps provide enhanced period-to-period comparability of operations and financial performance and is useful to investors as other companies in the industry report similar financial measures. Adjusted EBITDA should not be considered as an alternative to net income determined in accordance with GAAP. Set forth below is a reconciliation of adjusted EBITDA to net income, the most directly comparable financial measure calculated and reported in accordance with GAAP. The calculation of adjusted EBITDA below may not be comparable to the calculation of similarly titled measures reported by other companies.
